

8 THINGS TO CONSIDER BEFORE PURCHASING RESIN STACKING CHAIRS

NUFURN BARREL™ CHAIR

SOME COMPETITORS

1 The Ultimate Stacker: up to 40% more space efficient than some competitors. 20 Barrels™ only 1.97m high. We get 2880 Barrel™ chairs in a 40ft container.

Super space efficient.
20 Barrels only 1.97m high!!
Amazing 100 chairs per pallet

20 Pipee approx 2.4m high = more space required.
Only 60 chairs per pallet

Inefficient Space: Chairs like the Pipee chair only stack 14 chairs in the same height stack as 20 of our Barrel™ chairs. Less chairs in a stack means more warehouse space and more truck space.

2 Highest Commercial Rating: The Nufurn Barrel™ chair is rated to 300kg by AFRDI. That's 50% ABOVE the Australian Standard.

No Rating: Some chairs have no rating at all or are only rated for domestic use.

3 100% Pure Polypropylene: Solid colour and consistently high grade, exceptional quality.

See Through: You can practically see through some chairs due to the quality of the polypropylene used.

4 Attention to Detail: Smooth, clean lines reinforce an excellent product that is superbly finished.

Uneven moulds: Do your chairs have a smooth finish? Some chairs are manufactured using poor quality moulds, creating a poor quality finish.

5 Maintenance Friendly: A smooth seat on the Nufurn Barrel™ chair means quicker cleaning, saving labour and money.

More difficult to clean: Grooved seats between drainage holes make cleaning longer and more difficult.

6 Brilliant White to Last: Guaranteed UV stabilization for total sun protection.

Yellowing of resin: Look at what cheaper, low quality chairs can land up looking like in a short time.

7 10 Year Warranty: We stand by our product - Guaranteed! A 10 year warranty you can trust and rely on from the leaders in event furniture.

Minimal Warranty: Some chairs are only rated for domestic or light commercial use and offer minimal warranty.

8 Satisfies OH&S Requirements: Look after your staff. Specifically designed to move Nufurn Barrel™ chairs with ease.

Move 30 chairs at once!!

Injury: Manual lifting of heavy stacks of chairs can cause serious back injury.

Your *only* choice should be the Nufurn Barrel™ Chair
